

Warm-up/ review

Practice talking about living in Nerima:

What are the benefits to living in Nerima?

What are the disadvantages?

Which words and phrases apply to Nerima and why?:

Easy to get around, well-located for commuting into Tokyo,

pleasant to stroll around, exciting,

congested, safe for kids

On the one hand, it's convenient to get to. On the other hand, there's less to do than in Ikebukuro.

Would you ever consider moving? If so, would you move to the countryside or a big city? Why?

I could never live in the countryside. I would get bored.

I prefer to have a little peace and quiet and to take life as it comes.
